## AmBank M-CARD

### Introducing the all-new AmBank M-Card

Following the merger between AmBank and MBF Cards (Malaysia) in July 2013, we have rebranded MBF Cards to the new **AmBank M-Card**.

The AmBank M-Card comes with contactless chip technology, where you can breeze through at checkout counters just by tapping your card whenever you see the Paypass/PayWave symbol. What's more, this is the only credit card that allows you to enjoy rewards and savings through the BonusLink Rewards Program.
