**1. What is the product about?**  
 Invoice Financing-i ("IF-i") is a trade facility ("Product" or "Facility") offered by AmBank Islamic ("the Bank") to finance trade-related goods and services, either under sales or purchases in Ringgit Malaysia or foreign currency. The trade-related goods and services financed must be Shariah-compliant.

**2. What are the Shariah concepts applicable?**  
 The principal Shariah concept applicable is *Tawarruq* (tripartite sale) with Shariah concepts of *Wa'd* (promise), *Wakalah* (agency) and *Murabahah* (cost-plus sale) embedded in the *Tawarruq* arrangement.

*Tawarruq* refers to two sale and purchase contracts. The first contract involves the sale of an asset by a seller to a purchaser on a deferred payment basis, followed by the second contract in which purchaser of the first sale will sell the same asset to a third party on a cash and spot basis.

The *Tawarruq* arrangement shall entail the following steps:

- By a purchase request and undertaking issued by you, at your request, the Bank will purchase commodity from third party commodity supplier at cost price which is equivalent with the Facility amount.
- thereupon, by a murabahah sale contract, you will purchase from the Bank the commodity at the price equivalent to commodity cost price plus the Bank's profit ("Asset Sale Price") on deferred payment basis. You are entitled to request the Bank to sell the Commodity in market for cash or, to take physical delivery of the commodity at your own cost and expenses.
- If you intend for the Bank to sell the Commodity in market for cash, the proceeds of the sale will be disbursed to you in accordance with the terms and conditions of the Facility.
- In undertaking your aforesaid roles you may appoint the Bank to act as your agent to purchase on your behalf commodity from the Bank at the Asset Sale Price and thereafter for the Bank to act as your agent to sell the commodity for cash to any third party in the market.
- The murabahah sale contract in the *Tawarruq* arrangement will be executed upon each utilisation of the Facility.
